

46TH ANNUAL GOLDEN PLATE AWARDS

SEEDS OF HOPE

PLANTED BY OUR COMMUNITY HEROES

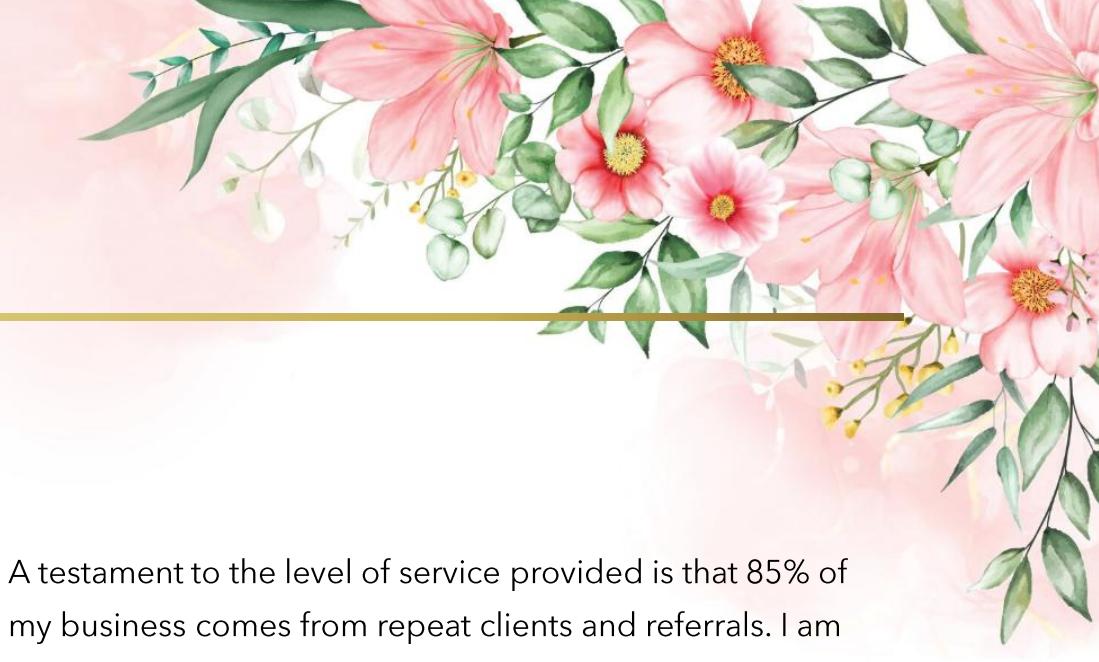

BUSINESS AWARD

Reni Rose

I moved to Sierra Madre in 1987 from New Orleans, where more than 30 members of my family still reside. My Federal Government career began in New Orleans with the Department of Energy and ultimately led me to Southern California, where I worked for NASA at JPL in Pasadena. Shortly after relocating, I began studying for my real estate license and earned it that same year.

My real estate career started with Berkshire Hathaway (formerly Prudential), and in 2011 and I became the owner and President of the company.

Since 1993, I have consistently ranked within the top 1-2% of Berkshire Hathaway HomeServices agents nationwide, and I have been the #1 producer in my office since 1988.

A testament to the level of service provided is that 85% of my business comes from repeat clients and referrals. I am also proud to be a recipient of the prestigious "Legend" Award for long-standing excellence, an honor bestowed on only 76 associates.

I genuinely enjoy what I do, and my passion for real estate becomes clear after just a few minutes of conversation. Simply ask, "How's business?"

Giving back to the community is also deeply important to me. Foothill Unity has been one of my favorite local charities ever since Greg and Glenda Vanni first introduced me to the organization when they invited me to their home to attend a Foothill Unity function many years ago.
